

La Pietra
THINSTONE VENEERS

Fall 2025

Natural Stone from New England

WELCOME

Experience New England

Thinstone Veneers (a division of La Pietra) was a culmination of decades of knowledge and experience in fitting all building types with the finest in stone. Whether a custom countertop or an elegant backsplash, La Pietra became one of the most highly regarded names in the industry with its beautiful selection of natural stones, and its pin point accuracy in installation.

After spending time working on so many great interiors over the years, it was time to take that same kind of dedicated focus and expand our offerings to provide the finest in exterior stone as well. After years of research and focus on the right types of stone and investment in top of the line equipment, **La Pietra Thinstone Veneers** was born and became the newest addition to the La Pietra family.

With a growing number of prestigious dealers from all over the United States, we highly pride ourselves in maintaining only the best working relationships with a product to match. Please visit our site for even more inspiration at www.thinstoneveneers.com.

We hope to hear from you soon.

SINCERELY,

La Pietra

THINSTONE VENEER

Thinstone Veneer is the product of guillotine splitting our raw stone and saw cutting it to a thinner slice. This allows for almost any surface to be clad with natural stone, from those that defy gravity to those that are subtle.

FULL BED STONE VENEER

Full Bed Stone Veneer is completely guillotine split in every collection except the CT Rounds. This allows the stone to have a rough and natural surface on all sides, providing a strong and versatile canvas for your masons.

PREMIUM WALL STONE

Premium Wall Stone lies in between Full Bed and the first split from the guillotine. This wall stone is crafted to make stacking swift and easy while maintaining a stackable geometry and well balanced weight distribution.

PREMIUM-CUT STONE VENEER

Our Premium-Cut is custom made to your desired specifications allowing architects, developers, and their clients. It is expertly chiseled, split, and sawn by our best craftsmen to meet your project's exact specifications.

CUSTOM STONE BLENDS

Do you love our products and want your own custom blend? We can do that! Whether its one pallet or enough stone to cover your new development, our team can help you match your site, city, town, or bucolic landscape.

LOCALLY SOURCED

At La Pietra, obsessive focus on providing superior products and service is our standard. With New England right at our doorstep, our access to natural stone that will help your clients achieve the quintessential New England look is unlimited.

FORM FITTING

La Pietra has been able to exceed the expectations of our customers no matter how complex the project. With the use of the latest technological advances in the industry and our keen attention to detail we can provide our customers with custom blends and patterns. Together with your mason we can make your vision a reality.

AESTHETIC QUALITY

La Pietra is New England's premier source for quality natural thinstone. Just like full bed stone, thinstone veneer is durable and will withstand the test of time. Our thinstone veneer has the ability to transform any project. Our access to the finest stone allows for a great number of options that will be sure to please every homeowner.

CUSTOM ORDERS

The products reflected in this catalog reflect our most popular styles and color selections.

Over the last several years we have worked with many discerning customers with exceptionally high standards. Throughout this time we have learned that everyone has a different perception of beauty and regardless of how intricate the design, we always present the best solution to fit any design need.

From our extensive collection of thin stone veneer and full bed stone, any combination of our stones can be blended together to create a custom blend to make ones unique vision come to life.

For special orders and custom blends please feel free to contact us at any time.
